Hong Kong Disneyland

Hong Kong Disneyland will be an enormous asset for the community and reinforce our position as a “must visit” destination on the international tourism map. In what way will Hong Kong gain by building the Disney theme park? Let’s talk about it.

First of all, there will be more job opportunities for local workers provided by the theme park. It is because of the electronic games in the park, such as roller coaster, haunted house, fantasy world…. They all need staff to serve the travelers, so there will be more job opportunities for local workers and it can lower the unemployment rate.

Secondly, it can attract more tourists to visit Hong Kong. The entrance fee is only $250. It is the lowest entrance fee of Disneyland worldwide! Hong Kong is the Orient of the East and the Shopping Paradise. The goods here are cheap. There are a lot of different species of food like Japanese food, Cantonese food, and Shanghainese food. So tourists can enjoy good things everywhere just in a place. And they can save their traveling fare.

Besides, there are many people traveling to other countries every year. They will spend a lot of money in Hong Kong. Building a Disney theme park can attract more and more tourists to visit Hong Kong. They like shopping. Hong Kong can earn much money from other countries. Therefore, building a Disney theme park can maintain a favourable balance of trade.

The Disney theme park is a famous building of the world and it is very vibrant. Building a Disney theme park in Hong Kong can enhance the international status of Hong Kong and made Hong Kong become a vibrant and cosmopolitan city. With the theme park, we can earn a lot of money, so it is an important asset for the future.
